# INTRODUCTION

## ABOUT THE VOODOO® SPEAKER

The VOODOO® voodoo speaker is a powerful boombox made in france. it connects wirelessly and / or mini-jack to your smartphone, tablet or other bluetooth device and / or mini-jack output so you can enjoy your music, videos and games anytime and everywhere.

### SYSTEM FEATURES

- You can charge your phone from a USB port directly to your speaker.
- The lithium-ion battery allows you to listen to music for hours. The battery is rechargeable.
- The charger has to be plug directly into the speaker.
- You can connect an audio device thanks to the **AUX-IN**.
- You can connect one ore more VOODOO® to each other thanks to the **AUX-OUT**.
- You can bring the VOODOO® everywhere thanks to the backpack function.

### “HANDMADE PRODUCT”

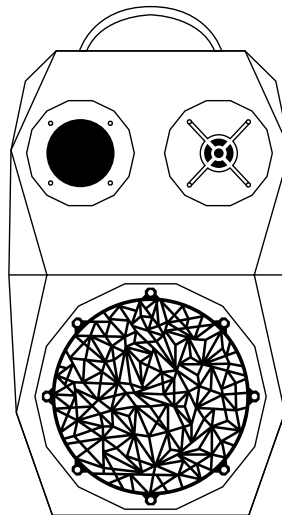

The material used and the manufacturing process of the VOODOO® speaker give a unique aesthetic to the speaker. the exclusivity of the product does not alter its performance.

A team is working full time on the manufacture of your product to offer you a quality speaker “handmade in the alps”.

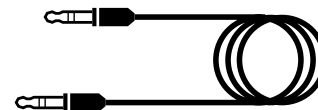

# WHAT'S IN THE BOX

Unpack carefully the elements and check if all these components are present:

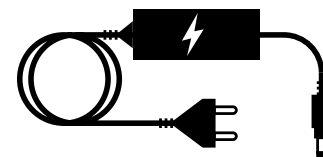

## X1 SPEAKER VOODOO®

## X1 MINI-JACK PLUG

## X1 CHARGER

## X2 SLINGS

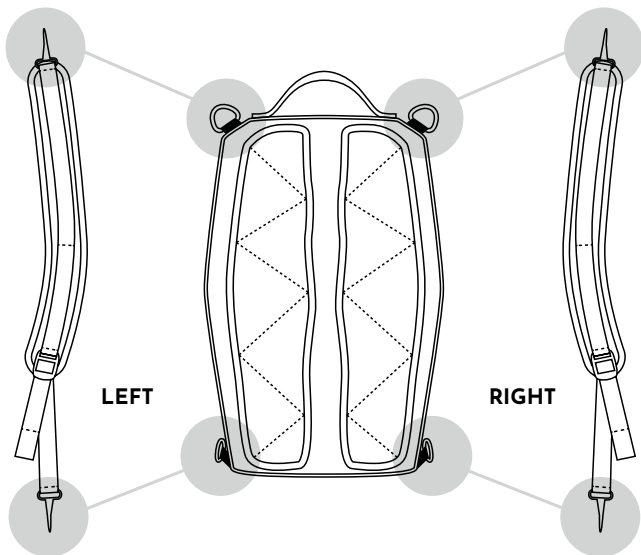

### COMMENT:

If any components look damaged, do not try to use it. Please contact immediately PEOPEO's customer service: [sav@peopeo.io](mailto:sav@peopeo.io).

## SET UP

### THE SLINGS

To set up the slings on your speaker:

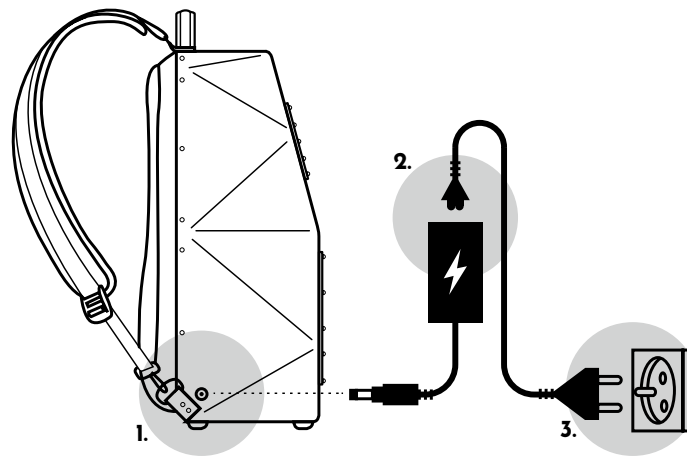

1. Differentiate the left shoulder sling and the right sling inside the box.
2. Attach the hooks on the top of the sling with the hooks on the top of the speaker and attach the lower hooks of the sling to the hooks on the bottom of the speaker.
3. Adjust your slings according to your needs. Slide the loop on the slings to shorten or lengthen the band and find the perfect length.

## SET UP SYSTEM

### CHARGING THE VOODOO®

Before using your speaker for the first time, connect it to the power outlet and charge the battery.

1. Connect the power cord to the charger connector of the VOODOO® speaker.
2. Connect the other end of the power cord to the AC power cord.
3. Connect the power cord to a powered electrical outlet.

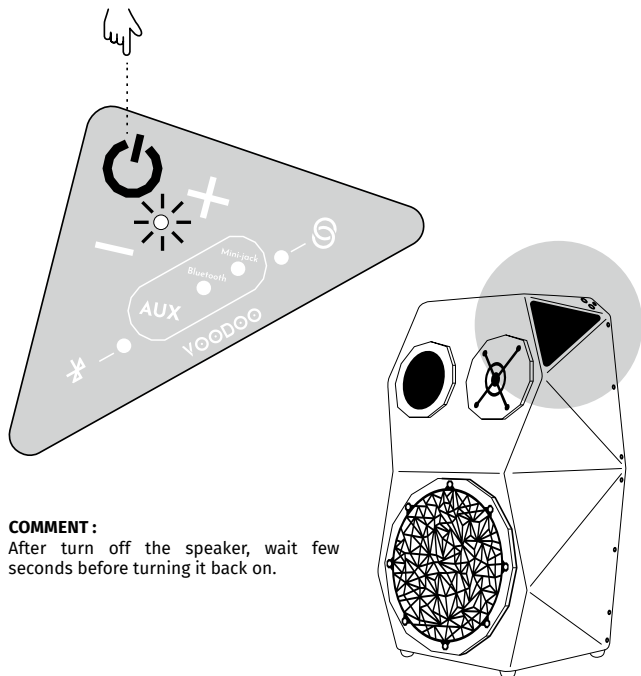

#### COMMENT :

Use the right adapter for your country.  
The battery indicator is orange when it is charging.  
The indicator turns green when the speaker is charged.  
The charging time is about two and half hours.

## SET UP SYSTEM

### TURN ON AND OFF THE SPEAKER

Press the button  on the interface to turn on your speaker. A green light comes on.

 **COMMENT:**  
After turn off the speaker, wait few seconds before turning it back on.

## SYSTEM USE

### CONTROL BUTTONS

You can with the control buttons:

1. Turn your speaker on or off.
2. Control the volume of your speaker.
3. Select the audio source: Bluetooth connection, mini-jack connection or both.
4. Disconnect any connected device by Bluetooth and connect a new one.
5. Pair two VOODOO®

 **COMMENT:**  
The auxiliary mini-jack is automatically activate.

## SYSTEM USE

### LED INDICATOR LIGHTS

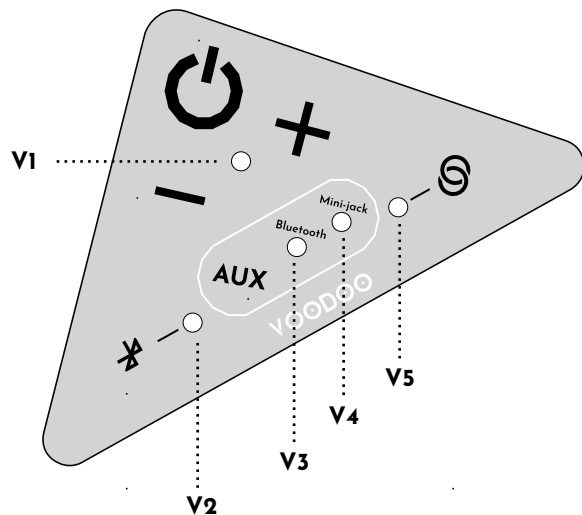

**V1.** Function indicator light. The indicator is illuminated when the speaker is on. The indicator is off when the speaker is no longer on. The indicator is flashing red when the maximum sound power is reached.

**V2.** Bluetooth indicator light.

**V3.** Indicator of the Bluetooth source selected via AUX.

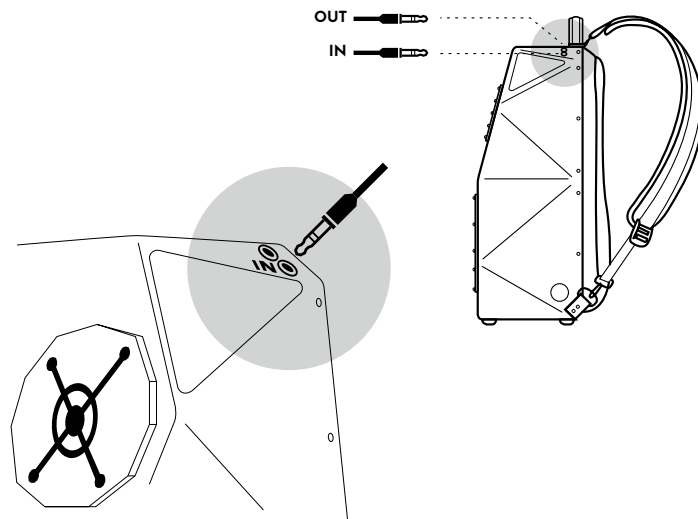

**V4.** Indicator of mini-jack connection selected.

**V5.** True Wireless Stereo indicator light.

## CONNECTING A DEVICE TO THE AUX-IN CONNECTOR

### MINI-JACK CABLE USE

With the **IN** input you can connect your speaker to:

- A smartphone, tablet, computer, or any other type of audio player.
- A mic.
- A musical instrument (for example: a guitar)
- A mixing deck.

The **IN**put jack accepts a 3.5mm stereo mini jack (included).

 **COMMENT:** a 6.3 mm jack cable can be connected provided you have an adapter (not supplied).

## CONNECTING A DEVICE TO THE AUX-IN CONNECTOR

### MINI-JACK CABLE USE

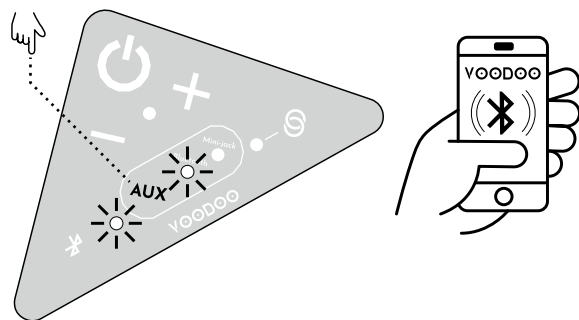

1. Turn on your speaker.
2. The led **AUX** indicator is automatically lit.
3. Using a 3.5mm stereo cable, connect your device to the **AUX -IN** connector on the speaker.
4. Press play on your audio player.
5. Press the button **+** to activate the sound on your speaker.

**ADVICE:** For an optimal sound increase the volume of your connected device (the maximum is recommended). Then, use the control buttons on your speaker.

## CONNECTING A DEVICE TO THE BLUETOOTH

### PAIRING A MOBILE DEVICE

*With the Bluetooth system you can connect wirelessly your speaker to any any mobile device that has a Bluetooth function.*

1. Turn on your speaker.
2. Press the button **AUX** until the Led Bluetooth indicator is lighting up. The Bluetooth indicator **V2** is flicking, searching for the device.

#### **Pairing a mobile device :**

1. Turn on the Bluetooth feature in the Settings of your mobile device.
2. Select PEOPEOxxx in your devices list.
3. The Bluetooth indicator **V2** stops flicking when your mobile device is connected to your speaker.
4. Play your music. Press the button **+** to activate the sound on your speaker. Remember to adjust the volume on your mobile device and on your speaker with the **+** and **-** buttons.

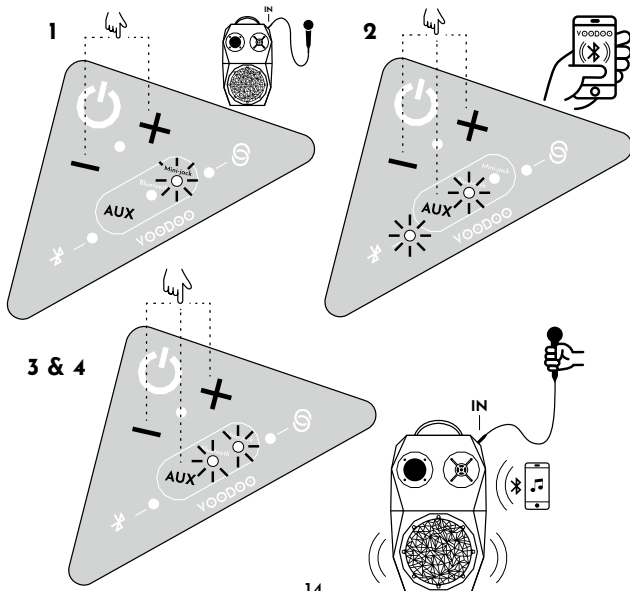

**BE CAREFUL:**  
It is recommended to place your mobile and your speaker **within 10 meters** of each other.  
**Over 15 meters**, the speaker will no longer receive the signal.

## CONTROL MULTIPLE DEVICES

### BLUETOOTH & MINI-JACK CONNECTION

It is possible to connect a device with a mini-jack cable and at the same time connect a mobile device with a Bluetooth connection.

1. Connect your mobile device with a mini-jack cable (see page 12). The led mini-jack indicator **V4** is lighting up. Press the button **+** to activate the sound on your speaker. Adjust the volume with the control buttons.
2. Connect your second device to Bluetooth (see page 13). Your connected mini-jack source will stop during the time you will adjust your Bluetooth source. Press the button **+** to turn on the sound on your speaker. Adjust the volume.
3. Press the button **AUX**, to light the led mini-jack indicator **V4** and the led bluetooth indicator **V3**. Then press the button **+**. Both devices will be ready to be heard.
4. If you press the buttons **+** and **-**, the volume of each source will increase or decrease from the presets you have made.

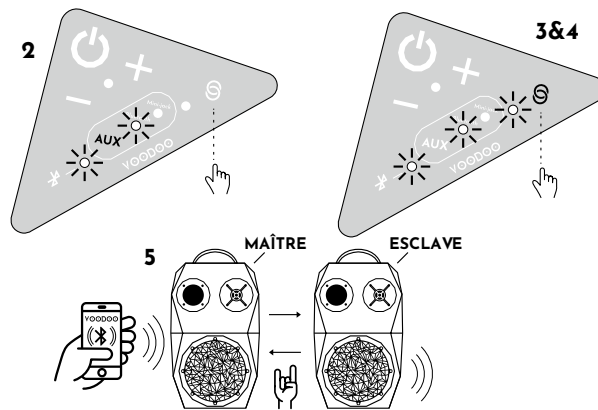

14

## CONTROL MULTIPLE DEVICES

### TRUE WIRELESS STEREO USE

It is possible to create a stereo hi-fi system by connecting two VOODOO® speakers together.

1. Turn on your speakers.
2. Press the button **AUX** and choose the Bluetooth function on each speaker.
3. Choose your "slave" speaker. This speaker is the device which is not connected to the sound source.
4. On the « slave » speaker, Hold your finger on the button for more than three (3) seconds on the True Wireless Stereo button . The Led **V5** indicator will flick slowly.
5. The second speaker is the « master ». Briefly press the True Wireless Stereo button. The led indicator flashes rapidly. Connect your device to Bluetooth.
6. The True Wireless Stereo is working when led indicators stop to flick.
7. Press the button **+** to activate the sound on your speaker.

#### BE CAREFUL:

This feature only works if the external source is connected in Bluetooth. The volume of each speaker is dissociated and must be set separately. To disconnect all your Bluetooth connected devices, press the Bluetooth button (see page 9).

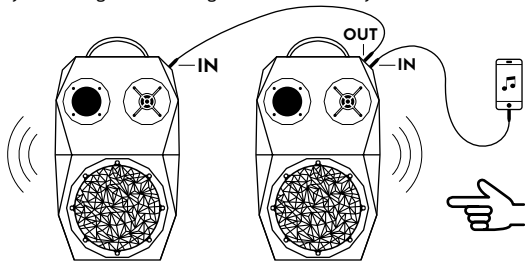

## CONTROL MULTIPLE DEVICES

### MINI-JACK & MINI-JACK CONNECTION

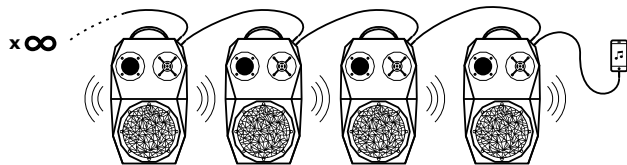

You can connect your mobile device to multiple speakers.

1. Using a 3.5mm mini-jack cable, connect your device to the AUX-IN connector on the speaker.
2. Then connect a 3.5mm mini-jack cable to the AUX - OUT connector on your speaker and to the AUX - IN connector on the second VOODOO® speaker.
3. Adjusting the volume of the speaker connected to the source will affect the volume of the second speaker. However the second speaker can be adjusted again by increasing or decreasing the volume directly with its control buttons.

#### ADVICE:

If you want even more power, you can repeat it with as many VOODOO® speakers as you want.

#### COMMENT:

You can do it the same thing by connecting your mobile device in Bluetooth.

## BATTERY POWER

### BATTERY LIFE

When the battery is charged you can use your speaker for 15 hours in a normal use.

The battery discharge time varies depending on the features used (USB charger, Bluetooth connection, True Wireless Stereo connection ...)

#### COMMENT:

Your speaker will be fully charged after 2h30.

To increase the battery life, reduce the sound volume.

### LIFE CYCLE

After 500 cycles of use, the battery life will have decreased by 10%. The battery life will be 13h instead of 15h initially.

### REPLACING THE BATTERY

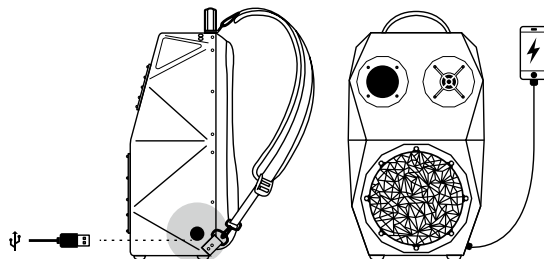

#### BE CAREFUL:

The user can not repair or replace the battery supplied with the system. It is necessary to contact PEOPEO customer service for any problem related to the battery.

### CHARGING YOUR MOBILE DEVICES

You can charge different types of mobiles devices such as a mobile phone, tablet or electronic cigarette thanks to the USB plug on the side of your speaker.

## ACCESSORIES

### RAIN COVER

The VOODOO® was made for an outdoor and indoor use. It has made to resist to a « normal » climate and environment.

The cover rain protects your speaker from an adverse weather such as heavy rain.

Easy to put on, you have to place it on the front of the VOODOO® speaker.

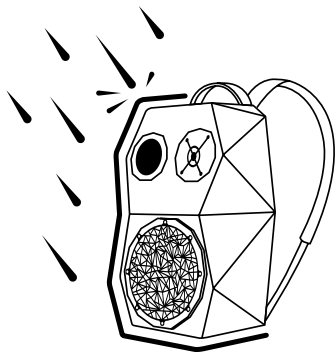

#### ADVICE :

It is better to protect and put it away in a well-ventilated area away from high temperatures, dust and moisture.

#### COMMENT:

To prevent to prevent any malfunction, the VOODOO® must be protected from a bad weather. When the VOODOO® speaker is not used, it is better to put it away in a clean and dry place

## OPTIONS

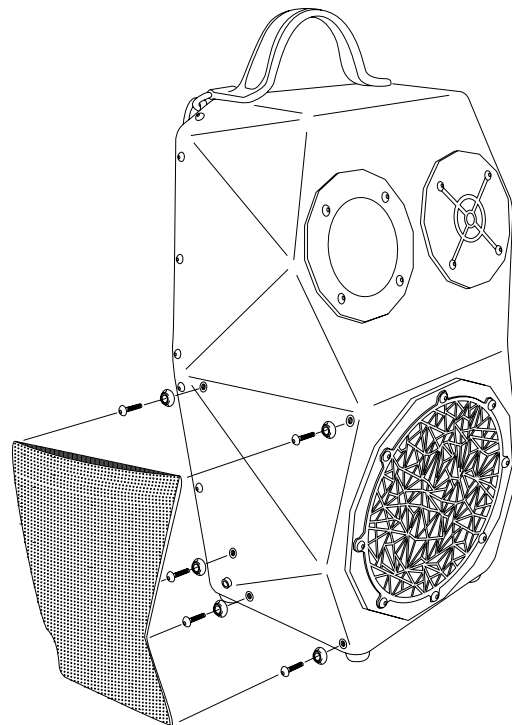

### SIDE POCKETS

#### BE CAREFUL:

The side pocks have to be ad when the speaker is manufactured. It is impossible to ad this option when the speaker is delivered, except if you send it back to PEOPEO company.

For any request, please contact PEOPEO Customer Service [sav@peopeo.io](mailto:sav@peopeo.io)

## OPTIONS

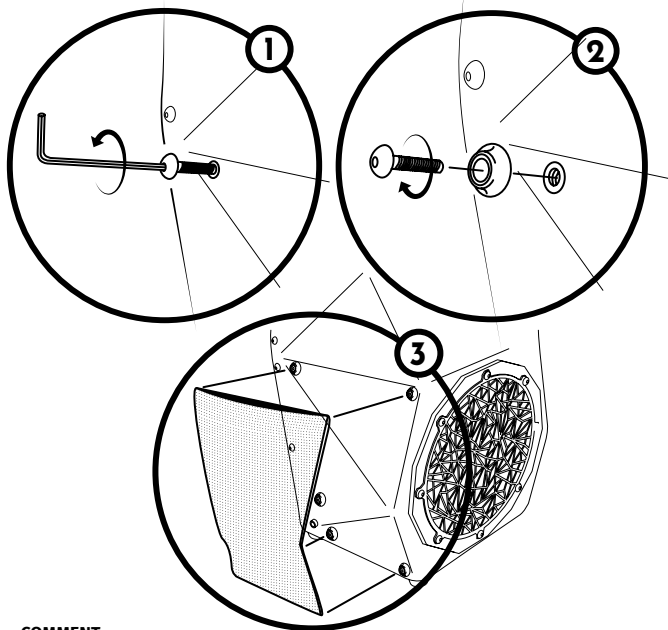

### SIDE POCKETS

To set up your pockets:

**Step 1:** Unscrew the screws on the left and right sides of your speaker: 10 screws to remove.

**Step 2:** Take these screws and add the male part of the clips. Retighten it at the same place.

**Step 3:** Clip your pockets on the side.

#### COMMENT:

If one of the component looks damaged, do not try to use it. Contact immediately PEOPEO Customer Service.

Treatment of electrical and electronic appliances at home.

PEOPEO declares this product meets the criteria and other applicable provisions of the European Directives. It meets UL 94 V flammability requirements.

Lithium-Ion battery used, meets Safety IEC 62133 (2012) and UN 38.3 standards.

## INFORMATION TO NOTE AND CONSERVE

---

*The name of the model and the serial number are written below the speaker.*

**Serial number:** \_\_\_\_\_

**Model:** VOODOO® speaker

**Purchase date:** \_\_\_\_\_

We advise to keep your receipt with this guide.

Phone number (France) : +33(0)7 67 20 22 79

## OPERATION

---

Place the speaker only on its base. Standing the speaker on any other side can cause damage to the speaker and adversely affect sound quality.

### BE CAREFUL:

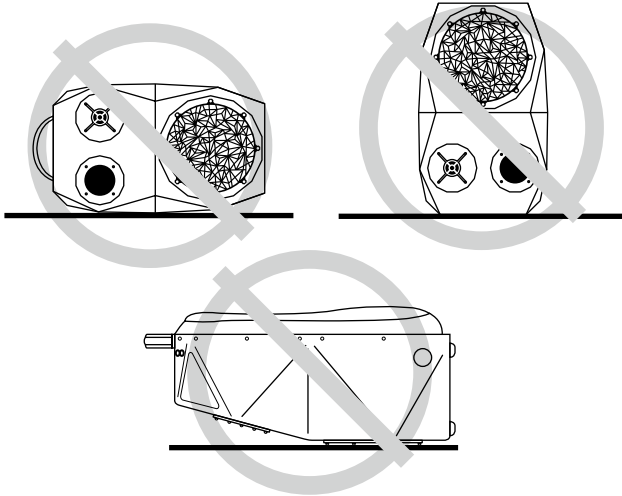

It is imperative not to put the speaker on a wobbly and/or fragile base because of the size of the VOODOO®.

### ADVICE:

The sound quality is even better when the VOODOO® is on the ground.

To avoid wireless interference:

- Keep other wireless equipment away from the speaker.
- Do not place the speaker and your mobile device on a metal shelf and away from any audio/video equipment and direct heat source.

## TRANSPORT ADVICE

---

### INSIDE THE PLANE

You have to respect some rules when you transport the VOODOO® speaker.

- Unintentional activation of the speaker must be made impossible in your luggage. Make sure your speaker is completely discharged.
- Electronic mobile devices between 100 WH and 160 WH can be transported in the cabin and in the hold with the prior airline's approval.

### BE CAREFUL:

Each airline has specificities. It is important to contact before your trip, your airline or your tour operator to know all the regulations.

### OTHER MEANS OF TRANSPORT

### BE CAREFUL:

The speaker may be carried on your back provided that you do not endanger your safety and health.

It is strongly not recommended to carry your speaker on the back while traveling by motorbike, scooter or ski/snowboard.

PEOPEO is in no way responsible for any injury related to the transport of the VOODOO® speaker.
